The course had clearly defined goals and outcomes.	5	3	0	0	1.38	8
Stated goals were met.	5	3	0	0	1.38	8
Content and pacing were appropriate.	5	3	0	0	1.38	8
There was ample opportunity for interaction among participants.	5	3	0	0	1.38	8
Written materials were relevant and useful.	5	3	0	0	1.38	8
The physical facilities were suitable to instructional design.	6	2	0	0	1.25	8
<i>answered question</i>						8

QUESTIONS REGARDING THE INSTRUCTOR(S) OR FACILITATOR(S)

Answer Options	Strongly Agree	Agree	Disagree	Strongly Disagree	Rating Average	Response Count
The course was well organized and prepared.	5	3	0	0	1.38	8
The instructor used effective teaching strategies.	4	3	0	0	1.43	7
The instructor managed the learning environment effectively.	5	3	0	0	1.38	8
The instructor had a thorough knowledge of the subject.	6	2	0	0	1.25	8
<i>answered question</i>						8

How will you apply the course content to your current job assignment? (skip if not applicable)

Using technology daily in my classroom.

Technology is such a big part of education and communication and will be used to communicate with parents and students. My students will use technology to produce and publish works.

I will use computer tips daily, such as knowing short cuts on the computer. I now know more about my classroom computers which helps when students have questions.

I will benefit in general from a better understanding of Microsoft Office.

Improved skills for me means I have more information and options to offer my students.

Do you feel more confident in navigating Microsoft Windows 7/8?

Yes x5

Yes -- all the experience I can get helps.

Yes! I am now using it in my classes.

Do you feel more confident in using Microsoft Office as a tool to increase productivity and efficiency in your day to day classroom operations?

Yes x8

Do you feel that you can use additional technology resources such as projectors and document cameras to engage your class at a deeper level? Do you see value in creating a classroom webpage or utilizing a learning management solution to engage students in a medium that they can relate to?

Yes x3

We can live without our smartboards and projectors! They help us connect with our students who are already technology experts. Great ways engage them is academic work.

I use an overhead projector about twice a week. A document camera and projector would be nice. It was fun learning about them. It's just the cost that is holding me back when my overhead does just fine.

Yes, I would like to have a class webpage. My students are not particularly interested, but it is a goal for me.

maybe

Other comments or suggestions:

We have an amazing technology team!

I use spreadsheets for my classroom, and I learned extra tips which are helpful.
