### How will you apply the course content to your current job assignment? (skip if not applicable)

I am currently working with a cohort and will hopefully use it in jumpstart and homestretch  
 I currently have a cohort of 9 so I am using the training information often.  
 I am currently facilitating a cohort for my school district. Everything was very relevant.  
 Facilitation skills and a resource to peers  
 I will try to offer my facilitator skills to my colleagues in my school district.  
 I will begin to facilitate nb cohorts next school year.  
 There was no heating in the facilities and we were all bundled in coats and scarves throughout the two day workshop.

### Other comments or suggestions:

Having completed a previous facilitator training, there should have been more time looking at examples of written response so we could practice looking at and reviewing work.

Warmer!!! But otherwise great!

Repetition of audience questions made for long lags in anything useful and pertinent to all

It was evident that the three presenters had planned thoughtfully to provide an organized and meaningful facilitator class for us. Well done. Thank you!

Hold the workshop in heated facilities. Otherwise, the workshop was very valuable and informative.

A significant portion of Sunday afternoon was spent on griping and complaining. I wish the facilitators had managed that better. The result is that we did not spend much time at all on giving feedback on entries and now I am working with my facilitators to remedy that. Overall, the training was a waste of my day, and not useful for our new facilitator either.
