1	I appreciated the time allotted to meet as a team. The tight-loose balance was just right.	3/10/2017 5:31 AM
2	Thank you for including Pullman in this pilot program. We are looking forward to improving our practice through the use of student feedback. Thank you!!	3/7/2017 11:22 AM
3	Food was good, but room was just a bit overcrowded. :)	3/7/2017 11:19 AM
4	Well done as usual!	3/7/2017 7:32 AM
5	If we meet again, please consider a larger room that allows each district to (a) be together and (b) have room to work. Being shoehorned into a space is not conducive to collaboration---it makes it much harder to have out materials to work with or room to construct meaning.	3/7/2017 6:17 AM
6	I feel that this project took too much meeting time. The evening meetings were not necessary as the goals of the project could have been met in one day meetings. Or, if the evening meetings were necessary, we could have finished at noon on the "full day." I enjoyed the interaction with other districts and I feel there could have been even more opportunities for sharing between districts.	3/6/2017 5:55 PM
7	It was an interesting pilot in which to participate; I left with an unclear picture of the value of the work overall and an unclear knowledge of what my district will do with the information we gained. That being said, I am glad we participated and believe we will forward our work, though probably without the cost of a purchased student perception survey and with the hopes that our legislature does not make this part of required information for evaluation purposes. To require something like this of teachers seems to be counter-productive and, despite what the research shows, hurtful to instruction.	3/6/2017 5:35 PM
