# STUDENT PERCEPTION SURVEY TOOLKIT

## Action Planning: Choose Your Areas of Focus for Growth

After you've analyzed your student perception survey data, it's time to make tangible changes in your classroom practice by reflecting on your data and identifying which Learn Next Module(s) support your focus area for professional growth.

#### Step 1: Reflect on your data

- 1) What themes emerge that you see as your strengths?
- 2) How do the student results compare to your predictions?
- 3) How are you or how can you extend your strengths beyond your classroom?
- 4) Which themes emerge that you see as areas of needed improvement in your practice?
- 5) Is there a specific area or category you would like to focus on? If so, why?
- 6) What are your next steps with this data?
- 7) In what ways do you see yourself sharing this information with colleagues or your evaluator?
