

Implementing a Classroom-Based Strategy Reflection Tool

Purpose

This is a reflective tool to track implementation of a new classroom strategy aligned with your focus area of growth.

How to use

As you implement new strategies in your classroom, it is critical to reflect on the impact they have with students. Use this reflective tool to capture your actions and overall response to the implementation of the strategy.

Focus area based on student perception data (circle the area(s) that apply):

***Higher Order Thinking, Honoring Culture, Authentic Learning,
Fostering a Safe Learning Environment, or Discussions***

Describe the strategy chosen to implement with students based off the resources provided.

Lesson, thoughts, and/or initial thinking of how to use this resource. Include time frame and checkpoints.

How did it go? Jot down some observations and/or reflections after the first use/implementation attempt.

What are your next steps?

Overall Reflection: How did this strategy or action impact student ownership and learning in your classroom?
