STUDENT PERCEPTION SURVEY TOOLKIT

Post-Action Reflection

After completing the Learn Next module(s) and/or engaging with additional resources for your focus area, reflect on your growth using the following questions. You may do this individually, with a collaborative group or with your evaluator (if you so choose). We encourage you to revisit this reflection as a tool to continue monitoring your own growth and progress.

1) How did you or could you involve your students in your post- survey actions?

2) What further supports do you need for implementation of your new learning?

3) What barriers do you foresee occurring in the implementation of your new learning?

4) In what ways will the new learning you gained from the Learn Next Modules impact your teaching practice?
